About Us

Spectr. Labs was incorporated in 2019 by IT experts carrying over 20 years of experience in spectrum of technologies while working with leading consulting companies in Europe & USA with fortune 500 clientele

"Spectr. Labs" is derived from the word "Spectrum" reflecting ourselves, our vision and our value proposition

Incorporated with a vision of providing what should have been a primary offering by most consulting firms , Quality resources / deliverables, the attribute which has been lost by many in a race towards profitability & headcounts. We still retain it.

Spectr. Labs has been assisting clients big or small, that are serious about increasing profits and decreasing costs using practical technology solutions suiting client requisites.

Unlike traditional consulting firms, Spectr. Labs has dissolved seamlessly within our clients culture, we have become an integral part of their process. We have not lost a single client since inception.

We are often asked, "What is it that you do?" We tell them, humbly and yet truthfully: we do amazing things. We help solve big challenges. Technically complex, critical challenges & yet remaining rational with our budgets.

Microsoft License Audit & Advisory (INDIA Only)

Software vendor audit decrease concerns around compliance and risk of fines. Engaging Software licensing experts removes the risk of experiencing audit shock.
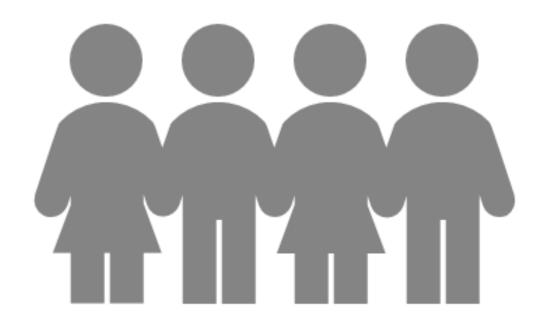

We act as Subject matter experts and offer a "Second opinion" to review any non-compliant vendor audit report, significantly reducing the cost of the vendor's identified violations.

As an independent vendor, we offer unbiased advice ensuring Software compliance. We work as an extended arm of customers team ensuring they have answers to all the vendor queries,

Our services include:

~ Software discovery
~ License entitlement analysis
~ License compliance gap analysis
~ Software license optimization services
~ Negotiation Support Services

Spectr. Labs

Staffing & Resourcing Solutions

Spectr. Labs

STAFFING MODELS

EMPLOYEE LEASING PROGRAM

Our Employee Leasing Program works by hiring the competent candidate on the payroll of Spectr. Labs and then leasing them back to the company on a period basis, as necessary.

Spectr. Labs then becomes the legal employer, taking over all the HR Management tasks

The above process takes care of the following

any costs related to onsite travel, accommodation, visa processing & charges and other associated administrative costs

in case of any resource related issues, Spectr. Labs Team will take care of the associate (Onsite/Offshore)
